**WEE HOMES**

# ..COMPLETE PLANS..

Since building a house involves a major investment it demands careful planning. You will want a home that keeps your family comfortable in all kinds of weather; a home of beauty, one that utilizes all available space to the best possible advantage.

The designs presented in our books will meet with those requirements, and they are distinctive designs of houses with individuality.

The pictures show how the houses will appear after construction and the miniature floor plans show the size and arrangement of the rooms. It is impractical to build from a picture and a miniature floor plan alone. You will need complete plans and specifications. To build without definite plans, or with makeshift plans, invites misunderstandings, the possibility of costly mistakes, and faulty, weak construction.

Designers and builders with many years' experience helping families choose plans and build homes of maximum quality at minimum expense, have prepared complete, detailed plans for each of the designs illustrated in our books. These tested plans are available to you at the nominal costs shown. All orders are filled promptly.

---

The plans shown in this book represent only a fraction of the total number of designs which are available to you. We have 18 different plan books listed on the back cover of this book and in them are more than 1250 designs from which you may choose the one you wish to build.

---

## **Order Your Plans This Simple, Easy Way!**

**USE THE HANDY ORDER BLANK ATTACHED!** Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Here's what you get:

**PLANS**—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

**SPECIFICATIONS** — The specifications list

in detail the construction of the house from the excavation to the interior decoration.

**LUMBER AND MILL LISTS**—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

**Use The Handy Order Blank Attached!**

**Secure complete plans from  
L. F. Garlinghouse Co.,  
Topeka, Kansas.**

No. 7011—Distinctly modern in  
tone, this house would please  
even the most traditionally-  
minded for its modern appear-  
ance comes merely from skill-  
ful use of standard materials.  
The trimmed hedge adds a color-  
ful effect to the entrance.

Complete plans as shown or re-  
versed, specifications, lumber,  
and mill list -----\$12.50

Duplicate sets with original order. Per set\_\$5.00

No. 7028 — Above — Combining taste and practicability in a low cost home, this cottage with its large picture window would be ideal for a lake-side setting. A wall furnace is provided for year-around convenience. Since the plans provide for a disappearing stairway over the central hall, the attic can be used for storage of bulky items of sporting equipment. As the construction of this house is conventional in every regard, it would serve as well as a permanent, city dwelling.
